

PICCHIANI & BARLACCHI

Since 1902, we have been shaping metal

PICCHIANI & BARLACCHI

Tradition, Made in Italy, Quality imprinted on metal

Over 110 years have passed since the foundation of Picchiani & Barlacchi in 1902: over one century of culture and art are crystalized in our artistic and commemorative medals, crests, trophies, fashion accessories and many other objects, manufactured with mastery. They remind us of unforgettable events at local, national and international level.

Our origins are profoundly eradicated in Florence's cultural and artistic milieu and our medals can prove it: Picchiani & Barlacchi's archive comprehends over 400.000 dies, imprinting on metal our national and international history from early 20th century up until today.

We manufacture prestige objects in a solely independent way, without delegating any phase of production neither employing product of foreign origin, **letting Made in Italy grow stronger and flourish.**

Gazing at the future, as my ancestors did before me and as we are also doing today together with my mother and my aunt, we are carrying on our *"family narrative"* of constant pursue of quality and excellency.

Since over one century, we have been welcoming every order with the same care and enthusiasm, designing it together with the client and personalizing it according to his own tastes and requirements. We do not only shape metal, we care for every detail and carefully create immortal pieces of art, apt at celebrating the importance of a certain event and the client's reputation.

MATTEO PARRI

CEO Picchiani & Barlacchi

WHY CHOOSING A PICCHIANI & BARLACCHI'S PROMOTIONAL OBJECT?

By gifting a quality object, you can demonstrate **your esteem for your collaborators, the prestige of a company, as well as the importance of your relations.**

When you choose a Picchiani & Barlacchi's promotional object, you are entrusting **master artists who have been shaping and casting metal objects into unique and refined works for over 110 years.** We have at disposal highly skilled artists, internationally recognized sculptors as well as the best Florence engravers, printers and artisans with solid technical heritage.

Thanks to our expertise, you have the assurance that **you will gift a precious and unique object.**

THE PICCHIANI & BARLACCHI METHOD

Picchiani & Barlacchi's method requires several production phases.

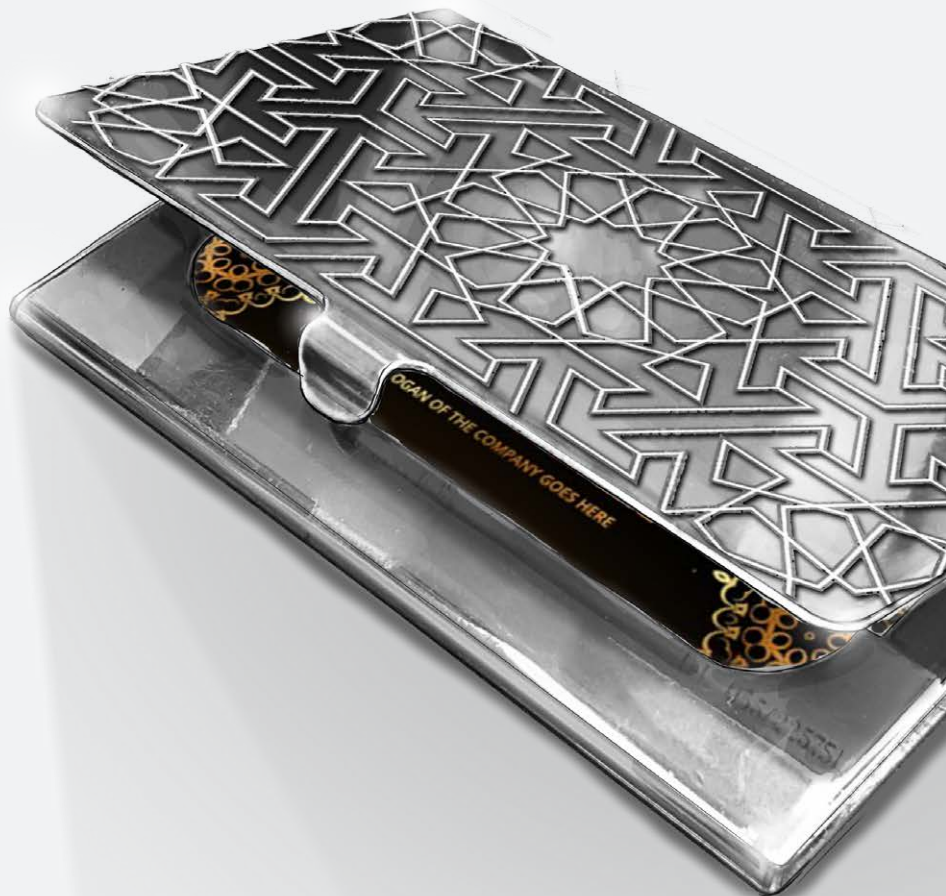

The journey begins with a **product's sketch**, which has been created strictly for the client's own use and is protected by copyright.

When you choose a Picchiani & Barlacchi promotional object, you are entrusting master artists who have been **shaping metal objects into unique and refined works** for over 110 years, applying engravers mastery together with up-to-date techniques.

From the design, our artists will create a **prototype**, and after the client's approval, our technical staff will begin the manufacturing.

Every phase will be supervised meticulously until the conclusion of the production. Our workers will polish and hand refine possible imperfection left by machines. This allows to maintain even the smallest detail during all production phase.

Once the production process is completed, the products **will undergo a meticulous quality check and will be selected** in order to be impeccable for shipment or pick up.
